

# SAVAGE

**S**avage, which built its first boat in 1898, now boasts a range of over 40 models from dinghies to cabin boats built to suit a range of boating styles all from budget friendly price points. Being solidly built and durable, they are the economical and no-fuss way to get into boating and with no expensive extras, Savage aluminium boats are great value and contain all the essentials you need for a great day on the water.

Savage has solidified their reputation for designing and building practical boats that last for generations of boating enjoyment and they don't come much tougher or more rugged than a Savage. Now featuring plate look sides on most models from 385 and above for added strength and durability.

With everything from compact 3 metre Punts to family-friendly 5.5 metre Bowriders, there is bound to be a Savage aluminium boat to suit your needs and budget, with more than 25 models in the range.

Being solidly built and durable, they are the economical

and no-fuss way to get into boating and with no expensive extras, Savage aluminium boats are great value and contain all the essentials you need for a great day on the water.

No matter where you live or go boating there is a Savage dealership to suit your boating needs, with over 60 dealerships across Australia as well as an export market to Tahiti and Noumea.

Unique to the Savage brand is the Ultra-Lift Hull which is available on the majority of the Savage models, which improves stability both at rest and underway, increases fuel efficiency and provides an all-round better performance.
